

ConSlitter

Duplex slitter

ConSlitter CFRU SilverLine

Technical Data

Materials Films, refined papers, laminates	Parent roll diameters 1,000 mm	Slitting widths ≥ 25 mm
Material thickness 10 - 500 µm	Finished roll diameters max. 610 mm	Winding cores 70 mm · 3" · 6"
Material widths 1,450 · 1,750 mm	Finished roll weights max. 400 kg (feature-dependent)	Machine speed max. 600 m/min
Slitting systems Blade cut · scissor cut		

Efficiency. A definite strength of the ConSlitter.

Wide range of equipment options.

For perfect slitting and rewinding results:

- Splicing table
- Scissor or blade cut
- Digital positioning aid for scissor cut
- Friction or expansion shaft operation
- Antistatic equipment
- Eccentric contact rolls

For high efficiency:

- Laser core positioning aid
- Finished rewind roll push-off device
- Various rewind roll removal stands
- Edge trim suction

Compact but comprehensive. Manifold applications.

Do you need a slitter rewinder that can process a variety of materials and is not too complex to operate? The ConSlitter CFRU SilverLine is the reliable and economic solution for your slitting needs.

With speeds up to 600 m/min at 2 different working widths, unwind diameter up to 1,000 mm and rewind diameter up to 610 mm the machine offers a comprehensive slitting and winding solution.

You can select from a flexible modular system so that the machine can be equipped exactly to meet your requirements!

Scissor cut
For best quality with long service life.

Rewind
Short machine set-up times, precise adjustment, perfect finished rolls.

Splicing table
High-quality splices made simple.
